## **Supplement 1.** Interview questions.

Before we begin, I would like to say a few words:

- All perspectives are welcome. There are no right or wrong answers or comments.
- Feel free to have an open conversation and speak truthfully. I am here to listen, ask questions, and ensure you have the chance for your perspective and experiences to be heard.
- If you need to answer a call, page, or need to be excused at any time, feel free to do so by stepping away.

Introductory question: Can you tell me a bit about yourself (your area of work and what you enjoy most about your job)?

Domain definition and constructs	Interview Questions
Environmental Context and Resources: Any	Question:
circumstance of a person's situation or	Thinking back on your experience caring for
environment that discourages or encourages	women and/or children during the COVID-19
the development of skills and abilities,	pandemic, were there any environmental
independence, social competence and	factors that affected delivery of pharmacy
adaptive behaviour	services?
-Environmental stressors	Example Prompts:
-Resources/materials resources	-Were there any lack of materials or resources
-Organisational culture/climate	available during the pandemic? If so, which
-Barriers and facilitators	resources/materials in particular?
