

# Index to Volume 54 (2001)

The index to Volume 54 contains a subject index and an author index.

In the **subject index**, items are listed under key words as found in the U.S. National Library of Medicine's Medical Subject Headings thesaurus.

In the **author index**, all contributing authors are listed alphabetically with the surname first and initial following. If an item has more than one author, the title is documented under the author name that appeared first when published in the *CJHP*. All other authors are listed referring to the name of the principal author, with the abbreviation "Jt Auth" indicating joint authorship.

Codes in parentheses before the page numbers indicate the nature of the item.  
The following codes are used in this volume:

A – Article

Abs – Abstract

BR – Book Review

CR – Case Report

DIN – Drug Information Note

E – Editorial

EDR – Executive Director's Report

FC – On the Front Cover

IP – CSHP Information Paper

L – Letter to the Editor

POR – Presidential Officer's Report

PP – Pharmacy Practice

SN – Society News

- Advances in antifungal therapy: Investigational antifungal agents (McTaggart) 28
- Analysis of the hypericin and pseudohypericin content of commercially available St. John's wort preparations (Walker and Draves) 139
- Antibiotic use in a family practice setting (Karakashian and others) 155
- Anticoagulant clinic versus family physician based warfarin monitoring: A randomized controlled trial (Wilson and others) 151
- Assessment of the impact of the Pyxis® system on pharmacists' clinical interventions (Pitre and others) 141
- An assessment of vancomycin use in two tertiary care hospitals (Gin and others) 142
- Association between baseline psychiatric illness and development of psychiatric symptomatology in patients receiving efavirenz-containing regimens (Park-Wyllie and Boyle) 145
- Buprenorphine for the treatment of opioid dependence (Ma and others) 145
- Canadian hospital pharmacist survey: Value of information provided by pharmaceutical companies for formulary decision (Nguyen) 147
- Can prescribing practice in the management of cellulitis be improved with the use of a clinical practice guideline? (Pierce and others) 34
- Can use of the PORT score reduce admissions for adult community-acquired pneumonia (CAP)? (Young and others) 143
- A case of benzocaine-induced methemoglobinemia (Sawh and others) 143
- Case report: Levofloxacin-induced bilateral Achilles tendinopathy (Connelly and others) 149
- Case report of a Stevens-Johnson type reaction to celecoxib (Gill and Hermolin) 146
- Challenges with the formulary in 2001 (Irvine-Meek and others) 22
- Competencies for pharmacists administering parenteral medications (Pipa) 142
- Complications associated with glycoprotein IIb/IIIa antagonists after thrombolysis (Singh and others) 152
- Cost minimization analysis of cefotaxime versus ceftriaxone in a tertiary care centre (MacDonald and McTaggart) 33
- Cost utility analysis of second line hormonal therapy in advanced breast cancer: A comparison of two aromatase inhibitors to megestrol acetate (Dranitsaris and Leung) 140
- Demographic and socioeconomic parameters in cardiac patients discharged from hospitals in Nova Scotia on smoking cessation agents (Whelan and others) 34
- Development and evaluation of a tool measuring the ability of stroke rehabilitation inpatients to self-medicate (Kwan and others) 153
- Development and implementation of a pharmacist-coordinated provincial system of cancer chemotherapy protocols (De Lemos and O'Brien) 140
- Development of a pharmacist-run preventative medication assessment program: The medication check-up (Kennie and Bajcar) 148
- Development of a practice-based blueprint for assessment of prescribers (Vaillancourt and Ma) 145
- The development of strategy for benzodiazepine withdrawal in elderly patients with chronic insomnia (Grymonpre and Mistri) 139
- Development of a tool to assess the geriatric patient's ability for self-medication (MacLeod and others) 32
- Direct thrombin inhibitors — Present and future (Pickering) 25
- Do Canada's hospital pharmacy administrators have the skills they need? (MacKinnon) 21
- Do Canada's hospital pharmacy managers have the skills they need? Results from a national survey (MacKinnon and Axworthy) 146
